Thema:	Online-Seminar: Creative storytelling for resilience, empathy and change
Veranstaltungsnummer:	2111E0601

Inhalt/Beschreibung

Beschreibung und didaktische Gestaltung:	<p>The old folk tales give us knowledge about how to face the unknown and are therefore ideal for engaging with challenging topics.</p> <p>Fatima is a resilient and resourceful young woman who faces and overcomes adversity as she is forced to leave behind everything she knows and seek refuge. Through telling the traditional Middle Eastern folk tale about her journey, we can give all our students insight into the experience of migration. Papa Legba is a West African trickster god who shows us how easily friends can become enemies and that we need to learn to see things the way other people see things. Students can relate these tales to their own lives and to global issues and explore the possibility of positive change.</p> <p>This workshop offers you creative, meaningful and mind-opening storytelling and personal response activities which can easily be used with these and other folk tales.</p>
